Profile

As a software engineering graduate with one year of experience in Spring Boot and React, I've explored various areas of software during my undergraduate education. I am committed to continuously improving myself and staying adaptable to new technologies. Thinking like an engineer, rather than solely a programming language developer, is something I prioritize. When it comes to problem optimization, researching beyond current knowledge is essential to achieving the best results.

Employment

Aug 2023 - Jun 2024

Software Engineer
Omreon Information Technology
Developed modern web applications using Spring Boot and React.
Designed modular and scalable systems to gain insights into microservice architecture.
Collaborated with the team to analyze and understand ongoing projects.
Studied API technologies, database management, and message brokers.

Jun 2023 - Aug 2023

Intern Software Engineer
Omreon Information Technology
Enhanced skills through videos on Spring Boot and React.
Developed personal projects to apply knowledge.
Gained insights into software development processes and best practices.

Education

Sep 2020 - Jun 2024

Bachelor's Degree, Software Engineering
Manisa Celal Bayar University
GPA : 3.47/4.00

Sep 2014 - Jun 2018

High School, Information Technology / Database Programming
Gazeteci Çetin Altan Vocational and Technical Anatolian High School, İzmir

Skills

Programming Languages   **: Java, JavaScript**

Web Development   **: Spring Boot, React**

API Technologies   **: REST, SOAP, gRPC**

Database Management   **: PostgreSQL, MongoDB, Redis**

Message Brokers   **: RabbitMQ, Kafka**
